

Athletes Of Wine

Macedon Ranges & North East VIC - Low Input & Organic Viticultures

Sommelier come winemaker Liam O'Brien dove into the vineyard in 2007 with friend Matt Bourke, leasing a 1.4 acre block of Chardonnay in the Macedon Ranges. The focus is being hands on, raising fruit from mature sites, with low yields and minimal chemical use to best express regionality. Over the years the pair developed close relationships with growers to expand into new territory and varieties, creating a poised and exciting selection of vino.

Liam also believes in the human element of terroir, judiciously applying techniques in the winery to build layers of complexity without over-complication. Like a great chef or painter, who know when to put the tools down and walk away.

Alto! Alto!! - Italian inspired wines of drinkability, cunning complexity and exceptional value.

Vino Athletico - Multi-site expressions showcasing the potential of Macedon as a whole.

Vinero - Single vineyard - Power, structure and texture, yet precisely restrained to remain vibrant.
