

From Sunday Winemakers

NSW & SA - Organic Viticulture

From Sunday Winemakers is the creative output of Sam Bowman, Dave Kynaston and a merry collective of grape growers, viticulturists and winemakers from around Australia. Sam has worked his way around many regions of Australia as a viticulturist, growing an extensive knowledge of their terroir, climate and suitable varieties for these conditions. Along the way finding many special locations boasting exceptional fruit. This range of wines is a small showcase of just some of those locations, specially selected by the two and produced to respectfully represent their origins.

The fruit is sourced from vineyards farmed sustainably, they try not to add anything that isn't fruit and remove as little as possible. The end goal being fresh, lively wines for great drinking pleasure.
